Qualification Profile

Web & software developer with 4 years of IT experience and over 1 year of development experience, well-prepared to excel in a web and software development role. In addition to acquired certifications, I have built several projects using technologies like React, JavaScript, Python, Node.js, and Java whilst adhering to industry standards, SDLC, and clean code.

- Capable of translating (UI/UX) designs into websites and web applications using various tools.
- Fast learner able to learn and utilise a variety of programming languages and tools for a range of projects.
- Easily work with different teams and people of various skill levels to attain collective business goals.

Technical Proficiencies

Software/Tools/: JavaScript, TypeScript, Python, Java, Node.js, HTML, CSS, jQuery, APIs, Jest.

Frameworks/Libraries: React, Bootstrap.

Other: AWS Cloud, SQL, SDLC.

Certifications

WYWM Academy (2023-2024)

Software Development Certifications (*viewable on my LinkedIn*)

Web Development | Testing Methodologies & QA Assurance | Java Fundamentals |

Python Fundamentals | Big O Notation | DevOps Fundamentals | Principles of Programming

EDX/Trilogy Education Services (2023)

Certificate in Front-End Web Development

<https://skillsbootcamp.credential.getsmarter.com/cedac557-e8aa-49e0-817e-f20ac9eb2ff4>

Other: AWS Cloud Practitioner | CompTIA A+ Certified

Projects

Card Champions © : <https://github.com/MrMaciejM/card-champions>

- Developed a custom card-battling game from the ground up against a CPU opponent by utilising tools such as React, JavaScript, CSS, HTML, and original assets created in Krita drawing software.

Expense Tracker: <https://github.com/MrMaciejM/expense-tracker>

- Expense tracker to keep track of expenses, costs, and dates using HTML, CSS, JavaScript, and React.

Weather Dashboard: <https://github.com/MrMaciejM/weather-dashboard>

- A weather dashboard app that displays current and 5-day forecasts using HTML, CSS, JavaScript, Bootstrap, jQuery, Moment.js, and RESTful APIs.

Professional Experience

AIR Worldwide Ltd. (Verisk Extreme Events Solutions), London, UK

2018 – 2021

Technical Services Associate

Planned system migrations and installations by determining clear and specific requirements. Built and sustained strong client relationships, securing optimal satisfaction and long-term retention.

- Developed award-winning PowerShell automation tool for automating application configurations.
- Spearheaded a time-sensitive project of upgrading PCs and securing data transfer for over 40 users.
- Partly managed new apprentices and helped internal and external customers with complex technical issues.

AIR Worldwide Ltd. (Verisk Extreme Events Solutions), London, UK

2016 – 2018

Technical Services Intern (Apprenticeship)

Assembled and configured desktops, laptops, and business mobile phones for end-users, ensuring a tailored experience for end-users. Supported various teams in resolving technical issues, including diagnosing problems and providing appropriate solutions. Played a key role in configuring software, hardware, and systems for clients or internal use.

- Obtained Infrastructure Technician Level 3 qualification through IFA Infrastructure Technician Level 3 apprenticeship.
- Acquired CompTIA A+ certification by leveraging proficiency in fundamental IT infrastructure skills.

Academic Highlights

EDX Front-End Development Bootcamp (Remote)

2022 – 2023

Student – Certificate in Front-End Web Development

Gained proficiency in HTML, CSS, and JavaScript for optimized website performance. Proficient in React and other front-end tools for creating responsive web apps. Skilled in test-driven development and integration testing for code reliability. Knowledgeable in UI/UX design principles.

- Achieved an outstanding score of 94% in a rigorous and high-pressure 16-week intensive boot camp.
- Secured top scores for completing the final project in a timely manner with fellow developers.
- Developed various apps within strict time constraints.
